Executive Impact

Delivered \$2.5M enterprise digital manufacturing transformation (Tulip eDHR) at a global FDA-regulated site, leading a 6-person team to a solution adopted by 1,000+ users with zero production interruption.

Led enterprise-wide EU MDR readiness through global Windchill PLM deployment across four continents, directing a 15-person team and delivering a platform serving 9,000+ users worldwide.

Directed global EU MDR compliance across legacy device portfolios with an 8-person cross-functional team, driving compliance and product disposition impacting 1,500+ users.

Aligned Regulatory, Quality, Engineering, Manufacturing, and Product Stewardship functions under unified governance across North America, Europe, Asia, and Latin America.

Professional Experience

BD (Becton Dickinson) 2025–2026

Senior Project Lead — Digital Manufacturing Transformation

Owned end-to-end delivery of a \$2.5M Tulip eDHR program for a global FDA-regulated manufacturing operation. Led a 6-person cross-functional team, delivering a solution adopted by 1,000+ users. Established governance, drove validation and change management, and engaged executive stakeholders to modernize the manufacturing floor while sustaining uninterrupted, compliant production.

Johnson & Johnson – DePuy Synthes 2021–2023

Global Program Manager, Regulatory Affairs

Led enterprise EU MDR transformation via global Windchill PLM deployment, directing a 15-person team across four continents and delivering a platform serving 9,000+ users worldwide. Directed regulatory data migration, governance, training, and organizational change across North America, Europe, Latin America, and Asia, building a scalable, compliant data foundation for a Fortune 500 orthopedics leader.

Medtronic 2013–2020

Global Program Lead — EU MDR Compliance

Directed global EU MDR (2017/745) compliance for legacy and non-product surgical device portfolios, leading an 8-person cross-functional team impacting 1,500+ users. Led regulatory gap analyses, ISO 14971 risk assessments, and technical documentation strategy while orchestrating Regulatory, Quality, Engineering, Manufacturing, and Testing Lab functions to drive global product disposition and continuous compliance.

Quest Diagnostics 2010–2013

Senior Quality Analyst

Led CAP/CLIA quality systems and compliance programs; authored SOPs and quality documentation supporting successful accreditation audits.

Pfizer Pharmaceuticals

Pharmaceutical Sales Representative

Promoted specialty pharmaceutical products in partnership with healthcare professionals.

Education

Doctor of Health Science (D.H.Sc.) — Candidate

Master of Health Science — Quinnipiac University

Bachelor of Arts in Science — University of Mount Saint Vincent

Bachelor of Science, Biology — Universidad Industrial de Santander

Certifications & Professional Development

FDA Clinical Investigator Training (CDER, 2023) • Six Sigma Green Belt • Good Clinical Practice (GCP), NIDA CTN • ACRP Clinical Research Coordinator • Claude 101 – Anthropic (Generative AI & Large Language Models) • National Science Foundation Fellowship • Hibbitt Endowed Education Fund Recipient
